Our Offerings

January 2022

OVERVIEW

This document includes a list of offerings we can provide, but is not limited to the list alone. We have over 25-years of experience in the building and construction industry with 13 of those providing advising, training, technical support, and technical sales.

DETAILS

- 1. Consulting and planning advice for adopting BIM.** We want to help you figure out how to adopt a BIM workflow, or to refine the one you already have.
 - a. Help with creating a comprehensive BIM Execution Plan.
 - b. Advice on current workflow with suggested revisions.
 - c. Help with creating BIM procedural manual.
- 2. Specialized training on Tekla Structures.** We have expert-level training experience with Tekla Structures in:
 - a. Steel Modeling
 - b. Concrete modeling
 - c. Rebar modeling
 - d. Miscellaneous modeling
 - e. Custom components
 - f. Customized training
- 3. Software adoption.** We will help you decide the best software options to fit your particular workflow. We have contacts across the software community. *There is no "one-size-fits-all" software solution.*
- 4. Document creation.** With our professional writing experience, we can help you develop the procedures for your company to follow when implementing your BIM process. Ultimately, the contents are approved by you.
- 5. Additional services.** More services can be negotiated during an initial discovery meeting.
